PROFILE

I am a skilled and motivated application developer with a passion for creating innovative solutions that drive business success. With a strong foundation in programming languages and a keen eye for user experience, I am dedicated to crafting robust, user-friendly applications that meet and exceed client needs. I am excited to bring my expertise and enthusiasm to contribute to your organization's growth and success.

WORK EXPERIENCE

DFNN, Inc.

Application Developer   February 2023 - Present

Commonly specialize in website design. It includes determining the structure and design of web pages, striking a balance between functional and aesthetic design, and ensuring web design is optimized for smartphones. A front-end application developer is responsible for implementing visual and interactive elements that users engage with through their web browser when using a web application.

Suncoast Web Solution

Wordpress Developer   October 2022- January 2023

I was able to create an appealing design for your website and communicate the message you want to convey to your target audience. This is a skill that takes a lot of time learn and practice to perfect. It's important to make sure you find a designer who has a strong awareness of colour, typography and design trends.

The Vibes Solutions

Intern - Front-end Developer   April 2022 - July 2022

The company only require OJT students to their company with a deep understanding of system development and the basic knowledge of programming languages.
